In case you aren't sure what to say, here is a template that you can use (fill in <>):

Dear <Whoever>,

I am a <1st/2nd/3rd/4+> year <major> student at Clemson University, and I am really interested in <Insert company/institution name>. I am writing for your insight so I can get the most out my undergraduate career and be a strong candidate for your company. Would you please tell me which programming languages you are using, which classes you feel best prepare people for this company, and any other things you look for on a resume that you think it would be useful for me to know?
